Election/Restrictions

1. Claims 2-27, 30-34, 38-40, 44-46, 48, 50-52, 54-66 withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 6/16/2005.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steve Arnett on 8/18/2005.

The application has been amended as follows:

- Re - Claim 29, lines 1, 4: the phrase "a vehicle" is changed to "an aircraft".
- Re - Claims 2, 3, 5, 6, 8, 10-22, 24-27, 31, 32, 34: the preamble of each claim is changed from "The vehicle" to "The aircraft"
- This application is in condition for allowance except for the presence of claims 4, 7, 9, 23, 30, 33, 38-40, 44-46, 48, 50-52, 54-66 drawn to an invention non-elected without traverse. Accordingly, claims 4, 7, 9, 23, 30, 33, 38-40, 44-46, 48, 50-52, 54-66 been cancelled.

3. The following is an examiner's statement of reasons for allowance: the prior art does not teach a controller capable of controlling the FCS in response to the signal from the landing gear. The claim language necessitates that the landing gear system be in communication with the controller of the FCS. The prior art does not teach this connection nor this ability to communicate.

4. Applicant's Landing ^{gear}~~gear~~ system is used to determine whether or not the aircraft is on the grounds. The prior art does not teach a FCS control that is capable of responding to a signal from the landing gear. The FCS is not the autopilot, these are two separate subsystems. Autopilot controls only the navigation and course control, and the FCS controller controls the operations of the fuel tank inerting system, and the prior art does not disclose a connection between the FCS and autopilot and thus the landing gear.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen A. Holzen whose telephone number is 571-272-6903. The examiner can normally be reached on M-F 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Teri Luu can be reached on 571-272-7045. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
